Business, Finance, Music Tech

GCSEs (Sep 2013 - Jul 2018)

Maths, English, Science, ICT,
Music Tech, Economics,
Geography, French

SKILLS

Coding Skills / Languages

- HTML
- CSS
- JavaScript
- React + Redux
- Node.js
- (currently learning back-end development skills)

Soft Skills

- Adaptability
- Quick learner
- Problem-solving
- Creative thinking
- Attention to detail
- Team player
- Great work ethic

I am a self-taught aspiring software engineer with a solid foundation in front-end development (HTML, CSS, JavaScript) and growing experience in back-end development (including Node.js and SQL). I have a strong passion for problem-solving, which has only strengthened since I started coding in June 2024. I'm known for being a quick learner and my ability to adapt to any environment I find myself in. I'm confident I'll add value to any collaborative team I'm a part of.

WORK EXPERIENCE

INDEED FLEX (UK)

(Agency) Delivery Driver

Sep 2024 - Current

- I'm required to adapt to multiple different industries, including charities, retails, mechanics, and hospitality, learning new roles and processes quickly to meet each company's unique needs.
- In situations where my satnav can't be relied on, I consistently use my knowledge of the roads to work out the best route possible whilst delivering.
- I have shown great work ethic by consistently meeting deadlines and maintaining performance standards, regardless of changing conditions.

SAINSBURY'S (LEE GREEN, LONDON)

Online Assistant + Delivery Driver

Nov 2021 - Jan 2024

- I applied problem-solving to optimise delivery routes, manage unexpected customer requests, and address operational issues efficiently.
- I maintained strict attention to detail when checking orders, managing item availability, and ensuring presentable packing for every delivery.
- I worked as part of a team to carry out daily routines and resolve customer issues, meeting customer needs in a fast-paced environment.
